

CONFINED SPACES – ZGT32

Level 2 Award in Working in High Risk Confined Spaces (6150-03)

COURSE OVERVIEW

This Working in High Risk Confined Spaces course is a National Occupational Standard (NOS) for the water industry. The NOS embodies the skill and knowledge elements, as part of the requirement for candidates to become competent. It is designed for managers, supervisors and operatives who may need to enter or supervise the entry into high risk confined spaces for the water industry and carry out a variety of work activities.

Pre-requisites

Candidates should be physically fit and medically capable of using positive pressure breathing apparatus. It is advised to be clean shaven when attending this course.

Who Should Attend?

This course is intended for people nominated to work in or at confined spaces where work has been classified as high risk (NC4). These spaces are primarily enclosed and are a potentially hazardous working environment where self-contained breathing apparatus (BA) is required to be worn.

COURSE OBJECTIVES AND CONTENT

- Prepare to enter and work safely in high risk confined spaces
- Enter and exit confined spaces safely
- Prepare and use escape breathing apparatus in accordance with manufacturers' specifications
- How to use equipment and tools safely and in accordance with manufacturers' specifications
- Following procedures and work safely
- Dealing with emergencies
- Appropriate behaviour for working in high risk confined spaces
- Appropriate water industry knowledge for working in high risk confined spaces
- How to apply relevant water industry specific knowledge for working in high risk confined spaces

Certification

All delegates receive a certificate valid for 3 years.

Course Ratio / Duration

8:1 (8 delegates to 1 instructor)
20 guided learning hours i.e. 3 days
